

# EcologyTechnology

**All-In-One**  
Convenient and sanitary hand washing. Water, soap and drying in one spot helps keep the restroom clean.

**Terreon®RE**  
Recycled solid surface material made from eco-friendly bio-based resin and pre-consumer recycled granules.

**Hand Dryers**  
Highly efficient low energy consumption, sensor activation and auto shut off conserves energy.

**ndite®**  
Photovoltaic cells convert light from the restroom to energy used to power the faucet – no batteries required!

**Water-saving Faucets**  
.38 GPM flow conserves water. Hands-free activation saves energy.

**Pamper Yourself!**  
Enjoy the luxury of personal space.

**Multi-height**  
Stations at different heights accommodate variety of users.

**Recycle**  
TerreonRE, stainless steel panels, and trap covers contain recycled materials and can be recycled.

**Recycled Content**  
Stainless steel partitions and washroom accessories contain post-consumer recycled content.
