Due to printing variances, the actual color of the material may differ. Contact your Bradley representative for actual material samples.

**Co-Extruded colors are available at an additional charge.*

MATERIAL

Lenox solid plastic lockers, cubby lockers, locker benches, and pedestal benches, are fabricated from an advanced formula of high density polyethylene (HDPE) allowing the lowest maintenance and the highest durability. With an odor absorption rate of nearly zero, solid plastic is the perfect solution for highly humid or wet areas.

Whether you're an owner, facility manager, or architect, you will appreciate the low maintenance and high aesthetic value of solid plastic.

Choose from solids, speckled colors, or our new co-extruded line, which reveals your logo in a contrasting color.

Lenox solid plastic lockers are covered by a 20-year warranty against rust, corrosion and delamination under normal use.

APPLICATIONS INCLUDE

Educational institutions, theme parks, stadiums, arenas, health clubs, food service, waterparks, locker rooms, and any other high-traffic and/or high humidity or wet area.
