*Due to printing variances, the actual color of the material may differ. Contact your Bradley representative for actual material samples.*

## MATERIAL

Mills solid plastic partitions, urinal and sight screens, and shower stalls are fabricated from an advanced formula of high density polyethylene (HDPE) allowing the lowest maintenance and the highest durability. With an odor absorption rate of nearly zero, solid plastic is the perfect solution for highly humid or wet areas.

Whether you're an owner, facility manager, or architect, you will appreciate the low maintenance and high aesthetic value of solid plastic.

Mills Bradmar partitions have 1" thick doors, panels and pilasters.

Mills solid plastic partitions are covered by a 15-year warranty against rust, corrosion, and delamination.

## APPLICATIONS INCLUDE

Educational institutions, theme parks, stadiums, arenas, health clubs, food service, waterparks, locker rooms, and any other high-traffic and/or high humidity or wet area.
