

## Material Selection Guide

Whether you're an owner, facility manager, or architect, you will appreciate the low maintenance and high aesthetic value of solid plastic.

### MATERIAL

Fabricated from an advanced formula of high density polyethylene (HDPE) with 30% pre-consumer recycled material, Lenox® solid plastic lockers offer the lowest maintenance and the highest durability. With an odor absorption rate of nearly zero, solid plastic is the perfect solution for highly humid or wet areas.

Choose from solids, speckled colors, or co-extruded colors, which reveal your logo in a contrasting color.

Lenox solid plastic lockers are covered by a 20-year warranty against rust, corrosion and delamination under normal use.

### PRODUCTS

Solid plastic lockers, "Z" lockers, bench lockers, cubby lockers and pedestal benches.

### APPLICATIONS

Educational institutions, theme parks, stadiums, arenas, health clubs, food service, waterparks, locker rooms, and any other high-traffic and/or high humidity or wet area.

\* Also available in 100% post-consumer (PoC) recycled content. Post-consumer colors available at an additional charge.

\*\* Also available in 100% pre-consumer (PrC) recycled content.
