

Natural Beauty Meets Cool Sophistication

fusion

Exclusively
from Mills®
Partitions

Mills® introduces the Fusion line of decorative high-end commercial partitions. Fusion is a marriage of granite's natural beauty and the sleek style of stainless steel or baked enamel.

An eye-catching duo to transform your next space—from boutiques, hotels, casinos and galleries to art museums, restaurants, high-end department stores or offices.

fusion Design

Are you looking for a new design twist?

Mills is your only source offering a combination of granite partition panels and stainless steel or baked enamel doors.

Granite is the most durable material available for bathroom partitions and requires the least maintenance. Granite's hardness approaches that of diamonds. Quartz and feldspar, its main components, are the hard minerals that make granite extremely stain- and scratch-resistant.

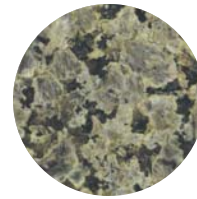

Choose from four colors of natural granite and three stainless steel finishes. To view our baked enamel colors, visit bradleycorp.com.

Transform an ordinary place into an extraordinary space with Fusion partitions' beauty and style.
