

# TOUGH ENOUGH

for the most extreme environments on earth

## Introducing KELTECH TANKLESS TEMPERING SYSTEMS

### **EFFICIENT. PRECISE. FAST.**

On demand supply of ANSI-required tepid water for safety showers and eye/face washes – **in seconds.**

## **SAFETY. First and last.**

The safety of your employees is paramount. Keltech electric tankless emergency water heaters control systems are engineered to ensure that water temperature is just right – not too hot, not too cold. Under constant flow and pressure, temperatures stay within +/- 1°F of set point. If the flow rate changes drastically, there is no need to worry about being scalded. These units sense the transition and purge latent heat, keeping the output temperature below 90°F. A separate set of circuits monitors for “over temperature” conditions. Large internal passageways minimize pressure drop.

## **EFFICIENT TEMPERING SOLUTIONS. Save energy. Easy to install.**

Perform on demand for efficient energy usage. Unlike boilers, tankless water heaters only draw energy when needed. Utility costs are minimized because there is no need to keep a 300 gallon tank heated 24/7/365. Easy to install – just add water and power. All you need is one electrical connection and a cold water line.

## **PREMIUM QUALITY. Long lasting optimal performance.**

Premium features come standard. All models are precision-engineered with materials, such as copper tubing and robust brass castings, that exceed the standards of any application – anywhere in the world.

**CLE Series**  
for safety  
eye/face  
wash applications

**SN Series**  
for safety  
shower  
applications

- Precision systems custom engineered to fit your application
- Meets ANSI Z358.1 standards and third-party verified to UL/CSA standards
- Only ASME and NB certified electric Tankless Tempering Systems in the world
- Optional features include NEMA 4X stainless steel enclosures, explosion proof purge system, and freeze protection to -30°F

**For optimum safety performance, install Keltech Tankless Tempering Systems with Bradley's Halo™ drench showers and eye/face washes.**
