

- Complies with American National Standard Z358.1-2009
- Universal Identification Sign and Inspection Tag Included
- Full, One-Year Warranty

Specifications

Barrier-free accessibility. Unit design saves space and fits easily into any work environment. Eye/face wash operates quickly by a stainless steel push handle. Safe, steady water flow under varying water supply conditions from 30-90 PSI is assured by integral flow control in the sprayhead assembly. NOTE: The ANSI Z358.1 standard requires an uninterrupted supply of flushing fluid at a minimum 30 PSI flowing pressure.

UPC and cUPC Approved

The Emergency Fixtures are certified to comply with the requirements of the Uniform Plumbing Code and the National Plumbing Code of Canada by the International Association of Plumbing and Mechanical Officials (IAPMO).

Standard Equipment

Eyewash Bowl

10" (254) diameter corrosion-resistant stainless steel.

Standard Sprayhead Assembly

Chrome-plated brass sprayhead assembly with twin soft-flow eyewash heads and protective sprayhead covers. Safe, steady water flow under varying water supply conditions from 30-90 PSI is assured by integral flow control in the sprayhead assembly.

Face Spray Ring

Chrome-plated circular spray ring provides supplemental face spray. Flow control assures adequate flow from eyewash nozzles and face spray ring from 30-90 PSI.

Valve

Chrome-plated brass 1/2" NPT stay-open ball valve. Hand operated by a large, stainless steel push handle.

Pipe and Fittings

2" chrome-plated brass.

Waste

1/4" drain fitting, wall tube and trap furnished.

Water Supply

1/2" NPT.

Recommended Option:
Navigator S19-2000 EFX8
Emergency Thermostatic Mixing Valve

NAVIGATOR

Satisfies ANSI Z358.1-2009
tepid water requirements.
