

### Plastic

ABS plastic and vinyl laminate share the same cleaning procedures. They are both highly durable plastics that will not flake and will provide years of service if properly maintained.

#### Routine Cleaning

Clean daily or as often as needed using a mild detergent to remove dirt and grime. Do not use caustic cleaners or abrasives as they will cause the surface to dull and become marred.

Clean weekly or as needed using a non-abrasive liquid tub and tile cleaner to remove soil and maintain the glossy surface.

#### Special Circumstances

If vandals use marker or spray paint to mark these surfaces, Bradley recommends using Mötsenböckers LIFT OFF® to remove the ink and spray paint. Remover #3 is for ink and markers, and remover #4 is for spray paint.

 **Do not expose the plastic to solvents as they will damage the material and may create harmful fumes.**

#### Repair Kits

There are no repair kits available for plastic materials, however, replacement parts are available. Contact your Bradley representative for part numbers and pricing.

### Gel-Coated Fiberglass

The Terreon® Deep Bowl Washfountain and the Extra Height Classic Washfountain both use a gel-coated fiberglass pedestal.

#### Routine Cleaning

Clean daily or as often as needed with a mild solution of detergent and water. Always use a soft cloth to avoid damage to the finish.

 **Do not expose gel-coated fiberglass to solvents as they will damage the material and may create harmful fumes.**

#### Repair Kits

There are no repair kits available for fiberglass materials, however, replacement parts are available. Contact your Bradley representative for part numbers and pricing.

#### Brand Names

Use of brand names is intended only to indicate a type of cleaner. This does not constitute an endorsement, nor does the omission of any brand name cleaner imply its inadequacy. Many products named are regional in distribution and can be found in local supermarkets, department and hardware stores, or through your cleaning service. All products should be used in strict accordance with package instructions.
