

Specifications

Wherever chase access is not possible for a built-in flush valve, Bradley recommends a 7900 series flush valve access box. This unit can be used with back-supplied Bradley toilets and urinals.

Materials

Box is 18 gauge stainless steel. Cover is 14 gauge Type 304 stainless steel. Cover is secured by vandal-resistant security screws.

Construction

Box has welded construction. Front of sleeve is flanged and is provided with corner braces containing nuts for cover screws. Back of frame is flanged with holes provided to secure to forms or wall construction. Access boxes are available in wall thicknesses of 2-1/2", 3-5/8", 4", 5-5/8", 6", 7-5/8", and 8".

Finish

Cover is polished with a #4 satin finish.
