Specifications

IR-DCG Electronic Faucet: Deck-mounted electronic lavatory faucet. Sensing range is factory-set to 5” (127mm) Uses one 6V lithium battery type CR-P2 (included). Red light indicator blinks when battery is low. Requires thermostatic mixing valve (available from Bradley).

Optional Plug-In Transformer (PT): 100 - 240V to 6.75V, 50/60 Hz, Class II (AC power option for faucets with battery operation). CSA certified.

Operation

Faucet features hands free (touchless) operation. Water flows when sensor is activated and stops upon deactivation of the sensor.

Verify all rough-in dimensions prior to installation.
Consult local and national codes. Conformity and compliance to local and national codes is the responsibility of the installer.
