Towel Dispenser

Model 2496 — Surface-Mounted with Sensor Activation **Bradex**[®]

Product Materials

UNIT: Constructed of high impact material. Door is translucent, and fabricated from durable high-impact plastic.

Capacity

Dispenses non-perforated roll towels up to 8-1/2" in diameter and 8" wide with core sizes from 1 1/2"-2". Dispenser also allows for 4" diameter stub roll.

Operation

After loading paper and supplying power, simply close the dispenser cover. A 10" towel will be dispensed, and the unit is now ready for use. Operates with 4 "D" size alkaline batteries (not included). Automatic transfer system will integrate stub roll when the primary is nearly depleted. A flashing red indicator light indicates that batteries need to be replaced.

Installation

Verify all rough-in dimensions prior to installation. Secure to wall using convenient mounting slots and use appropriate mounting devices supplied by installer.

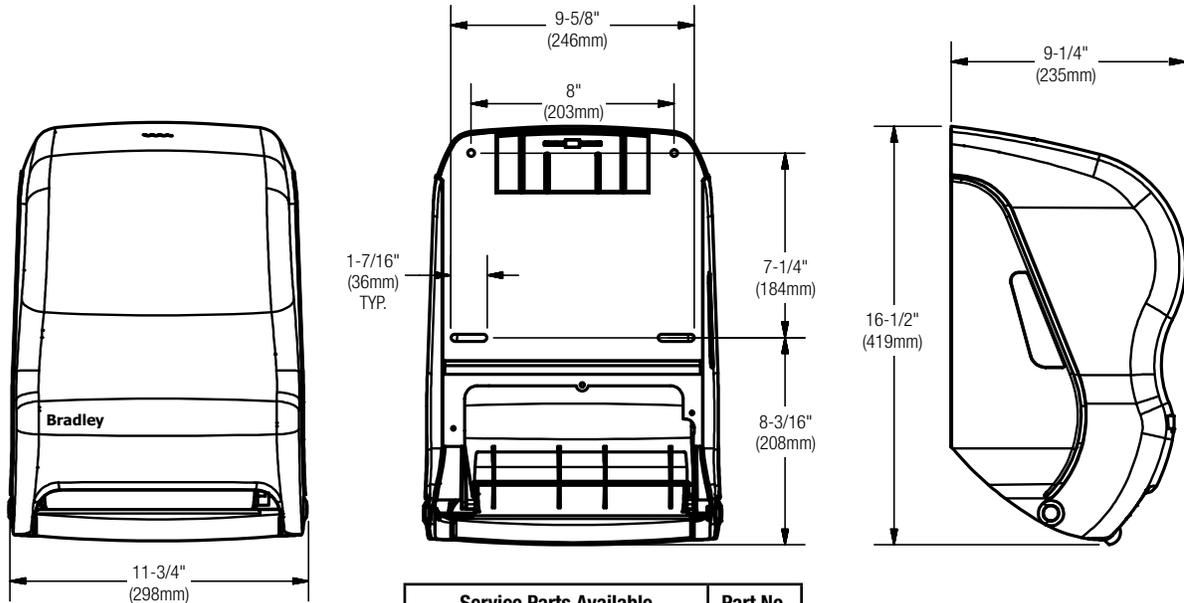

- Model 2496 fits inside Model 2271, and the two units can be combined to create a multi-purpose cabinet.

Guide Specification

Dispenser housing is fabricated from durable high impact material. The cover shall be fabricated from translucent high impact plastic. Dispenser shall have a sensor-operated towel dispensing mechanism. Dispenser will dispense a 10" towel after each tear of paper. Dispenser will be provided with a key activated spring lock. Dispenser shall include a transfer system which will automatically start feeding the paper web of the top roll when the lower roll is nearly depleted.

Overall dimensions: 11-3/4"W x 16-1/2"H x 9-1/4"D.
