

No Plumbing Required

Portable Safety Solutions you can depend on from Bradley

Don't compromise safety.

Certified to ANSI Z358.1, Bradley's Gravity-fed Eyewashes and Portable Pressurized Tanks make it easy to keep safety close by.

BRADLEYCORP.COM

Bradley's Portable Safety Solutions provide ANSI-required tepid water where you need them – no plumbed water supply required.

On-Site® Gravity-Fed Eyewash

Lightweight, versatile and made of impact-resistant plastic, Bradley's patented On-Site® gravity-fed eyewash uses just 7 gallons (26.5 liters) of water to provide an ANSI-compliant full 15-minute flush. ANSI recommends eyewash stations be within 10 seconds or 55 feet (17 meters) from a potential hazard. On-Site's small footprint allows for placement close by.

- Clear tank for easy inspection at a glance
- Highly visible safety yellow color easy to see in an emergency
- Exclusive patented vandal-resistant design
- Mount on wall, work surface or on optional waste cart that stores up to 56 gallons (212 liters) of waste solution
- Easy to maintain
- ANSI Z358.1 compliant
