New in 2016 Bradley Exclusive Custom Emergency Signaling Systems

Fast response time is critical in an emergency situation. Bradley's Emergency Fixture Signaling Systems help mobilize response teams faster and help discourage vandalism. Now, you can custom design a signaling system that will quickly alert safety personnel when an emergency occurs. Perfect for new safety fixtures or retrofit.

BRADLEYCORP.COM

Bradley Signaling Systems are recommended for outdoor and remote locations, facilities with few employees, school science rooms, laboratories, warehouses, manufacturing facilities and more.

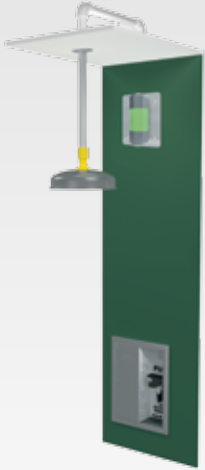

When someone is exposed to hazardous chemicals, time becomes a crucial factor in mitigating pain, discomfort and permanent damage. It's why the eyewash or drench shower is located within 10 seconds of the hazard. It's why the affected person is directed to stay in the flushing fluid for 15 minutes, and it's the reason emergency response personnel need to be notified and brought in as soon as possible.

Only Bradley lets you customize your signaling system for the particular needs of your application.

- **Exclusive** Configure custom alarm packages
- **Exclusive** Choose light colors for signal, area and beacon lights
- **Exclusive** Choose different alarm tones to help cut through ambient noise
- **Exclusive** Universal AC 90-264 volt input and low 24 volt output
- CID2 and CID1 explosion proof custom packages
- Auto reset / silence switch - silence the alarm but keep signal flashing or reset the system after testing
- NEMA ratings from 3R to 4X
- Central control board powers all options
- Choose durable brass or stainless steel flow switch
- Connect to Building Management Systems
- Recessed, wall-mount or mount on safety fixture
- UL listed for US and Canada

STANDARD SIGNALING SYSTEMS

S19-322 SERIES

- Recessed systems for most recessed, cabinet mounted eyewash/drench shower* systems
- Signal light and horn

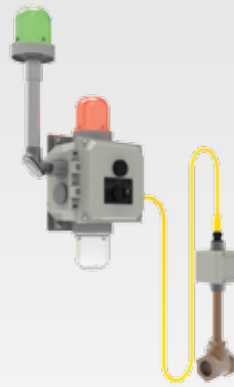

*Safety fixture not included

S19-323 SERIES

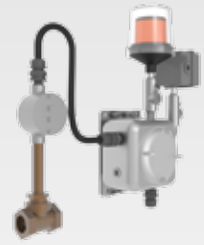

- Wall- or Fixture-mounted systems for most eyewash, drench showers or combination units
- Signal light and horn
- NEMA 3R

S19-324 SERIES

- Wall- or Fixture-mounted systems for most eyewash, drench showers or combination units
- Signal light and horn; optional beacon light and area light
- Silence switch to shut off horn during testing
- NEMA 4X

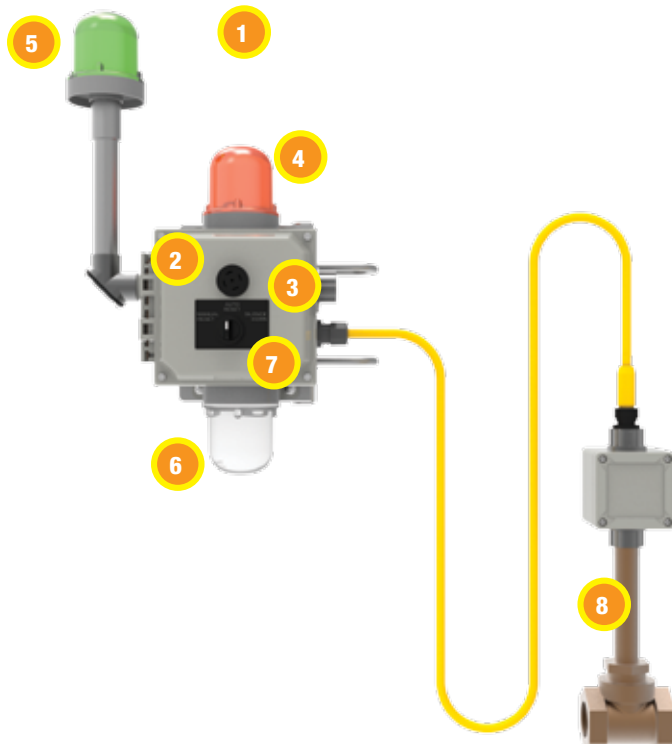

S19-324D2 & D1 SERIES

- Wall- or Fixture-mounted systems for most eyewash, drench showers or combination units
- Signal light and horn; optional beacon light and area light
- Optional silence switch to shut off horn during testing
- Explosion proof Class 1 Division 2 and Class 1 Division 1
- NEMA 4 or 4X

NEW IN 2016

CUSTOM SIGNALING SYSTEMS

Choose from three base models:

- 1 Model S19-324 (shown)
Model S19-324D1 (C1D1 Explosion Proof)
Model S19-324D2 (C1D2 Explosion Proof)
- 2 All electrical components contained in NEMA 4 or 4X enclosure

Customize with options:

- 3 Ultra-loud or multi-tone horn to cut through ambient noise
- 4 Amber or red signal light 
- 5 Green or blue beacon light 
- 6 White or red area light 
- 7 Silence/reset switch to turn alarm off during testing
- 8 Brass or stainless steel flow switch
