

RE: Certificate of Insurance

Dear Supplier:

It is the policy of Bradley Corporation to require a Certificate of Insurance from all of our suppliers, naming us as additionally insured. Please be sure to state "Bradley Corporation and Affiliates are named as additional Insured" in the special provisions portion of the certificate.

We require that our vendor/contractor, carries General Liability insurance, including Umbrella coverage of at least \$2,000,000.00, Auto liability coverage of at least \$1,000,000.00 combined single limit, and statutory workers compensation coverage. This coverage should be maintained while an active supplier to Bradley, and for two years thereafter.

This certificate should also commit to providing us with 30 days advance notice before cancellation of coverage. We also request that you ask your insurance company to send us a renewal of your company's certificate of insurance on annual basis.

Thank you for your cooperation. We look forward to receiving your certificate.

Sincerely,

Betty Rogan
