

Innovative Style & Durability

Timeless, unmatched range of commercial washroom solutions designed with both form and function in mind

All-in-One Touch-free WashBar®

All the fundamentals of handwashing have been thoughtfully designed into the cutting edge WashBar®. Providing a completely touchless handwashing experience, the WashBar houses soap, water and dryer in one intuitive and attractive unit. Save on maintenance costs with fewer soap refills, eliminating paper towels, less wet floor clean up and less time emptying waste bins. The all-in-one WashBar is the smart solution you've been waiting for.

Applications: Museums, banks and credit unions, colleges and universities, entertainment and amusement centers, healthcare and office buildings, restaurant and retail locations

Handwashing Solutions

Verge® Wash Basins— Cast-formed in Evero®, Verge basins feature one-piece construction with no visible, discolored seams or unsightly caulk lines. More durable than granite and maintenance free, these basins perform well in high traffic, high vandal areas while adding style and sophistication to the restroom.

OmniDecks™— Customizable, prefabricated and ADA-compliant. Choose from dozens of Terreon® solid surface colors for decks and bowls, and a variety of bowl shapes.

Express® ELX-Series perfectly blend the benefits of a one-piece multi-user bowl with the desire for personal space. A worry-free solution designed to handle the demands of a commercial restroom day in, day out, year after year.

Applications: Schools and universities, theaters, department stores, airports, stadiums, convention/civic centers, restaurants, supermarkets, health clubs/gyms

Washroom Accessories

Stylish design and a variety of options provide restroom hygiene in any public facility. Stainless steel construction provides long-lasting use in high-traffic applications. An extensive line of accessories including the Diplomat™ suite designed with unique dual curves for a single design aesthetic, are available: towel dispensers, soap dispensers, waste receptacles, mirrors, Aerix® hand dryers, grab bars with load ratings up to 1200 lbs, towel bars, robe hooks, shower seats (up to 1250 lbs rating) and shower curtains.

Applications: Airports and other public restrooms, hospitals, entertainment venues, restaurants, hotels/motels, schools, offices

Mills® Toilet Partitions

Stylish partition panels provide privacy in high-traffic public restrooms. Large selection of color and material options including powder coated, stainless steel, phenolic core and Bradmar™ solid plastic. Available in a variety of configurations to fit most bathroom designs: floor-mounted overhead braced, floor-braced, ceiling-hung and floor-to-ceiling. Powder Coated and Stainless panels are designed with a Permaseal™ edge to keep out moisture and eliminate rust — all backed by a 15-year warranty.

Applications: Airports and other public restrooms, entertainment venues, restaurants, hotels/motels, schools, offices

SafeCare™ Products

SafeCare™ products were developed, in consultation with behavioral health professionals, for restrooms in specialized care situations. Handwashing solutions, wall showers, and accessory options are styled to suit patient rooms and designed to enhance patients' feelings of a familiar, safe home-like environment.

Applications: Hospitals and other healthcare facilities, office buildings, schools and retail

Rugged, Reliable & Ready

High-quality, unparalleled range of long-lasting products for the most demanding industrial plumbing and emergency safety applications

Washfountains

Durable heavy-duty wash stations quickly service multiple users. Configurations to accommodate 3–8 users and models that allow for full arm length washing applications. Single water supply connection conserves water and is quick and easy to install. Available in Stainless Steel, Terrazzo, Terreon® or Bradstone™. Ideal for new construction or retrofit projects.

Applications: Entertainment venues, maintenance or repair facilities, manufacturing facilities, food processing facilities, schools, and stadiums

Showers and Lockers

Long-lasting single and multiple-user shower stations for public facilities. Variety of configurations available including wall-mounted, in-wall mounted, column and panel shower systems.

Lenox® Plastic Lockers stand up to the toughest conditions and will not rust or dent and never need to be repainted. Available in a variety of styles, colors and configurations available in 1–6 tiers (openings), or Z-design. Matching pedestal benches and locker benches available to complete your design.

Applications: Sports facilities, recreation/health clubs, dormitories and schools, hospitals and healthcare facilities.

Emergency Safety and Tempered Water Solutions

Emergency Plumbing Fixtures help prevent serious eye, face and body injuries. A broad product line includes eyewashes, drench showers and portable units with Halo™ technology and SpinTec™ shower heads for the fastest, most effective relief available. Products are manufactured to meet ANSI/ISEA Z358.1 standards and are third-party certified.

Keltech® heaters provide hot water on demand, saving water and energy. Keltech heaters save energy by heating water only when necessary, and innovative controllers are fully modulating meaning only actual kilowatts needed are used. Keltech heaters are the only electric tankless heaters registered with the National Board and certified with the HLW stamp.

Navigator® Thermostatic Mixing Valves mix hot and cold water to a comfortable temperature range in low or high use situations. Complete offering of valves used in conjunction with faucets, showers and emergency eyewash/drench shower equipment. Single valve design provides maximum efficiency in temperature control to within +/- 3°F and operating pressure based on valve capacity. Emergency valves with cold water fixed ports assures cold water flow while hot water shut-off ports prevent scalding.

Applications: Food processing facilities, hospitals, manufacturing facilities, mining, paper/pulp processing facilities, schools, transportation, warehouse, laboratories, government, apartments, hospitals, entertainment venues, religious facilities, and hotels/motels.

Design on Demand®

Bradley's Industrial Team will consult with you to design a custom water heating or safety fixture system for your specific applications. When unique environments require innovative solutions, contact industrial@bradleycorp.com.
