MILLS® PARTITIONS

Offering a wide selection of the most innovative product materials available, Mills® partitions suit a variety of applications and environments. Quality materials provide key features to architects and specifiers, such as aesthetic appeal, vandal resistance, low cost and warranties. From high-performance material options to creative style solutions, Mills partitions provide smart, economical choices.

Stainless Steel

- Mills takes this popular look to the limit with seamless panels
- Facing sheets of panels and doors integrally locked together
- Corners are welded smooth or adhered with a corner clip
- The Permaseal™ design is stronger than conventional crown molding construction
- Extra-height doors and panels available when additional privacy is needed
- The finish wraps completely around the edges

Door latches with convenient green and red occupancy indicators

Powder Coated

This quality powder coated finish combined with the exclusive Permaseal™ design makes Mills the best high value metal partition system available.

- State-of-the-art paint system offers rich palette of colors
- Extra-height doors and panels available when additional privacy is needed
- Durable, high performance powder coat finish allows for long-lasting beauty

Integral hinge system hidden in the door cavity

No gaps between doors and pilasters

Bradmar™ Solid Plastic

Partitions, Urinal and Sight Screens and Shower Dividers are fabricated from 30% pre-consumer, 100%pre-consumer or 100% post-consumer recycled high density polyethylene (HDPE). A variety of color options provides many design options.

- Low maintenance and high vandal resistance
- Withstands wet and humid environments
- Ideal for all high traffic restrooms such as schools, theme parks, stadiums and arenas
- 15-year warranty — one of the industry's best
- No Site™ style option ensures privacy (pictured to left)
- Extra-height doors and panels available for added privacy
- Floor-mounted, overhead braced and floor-to-ceiling mounting styles

NEW Phenolic Core

Integral No-Site construction comes standard to eliminate gaps between doors and pilasters for maximum privacy. High heat and high-pressure molding of solid phenolic core material delivers impact resistance and superior strength. Available in a wide variety of new colors.

- Built-in No-Site design for high privacy
- Resists water, oil and bacteria
- Withstands wet and humid environments
- Impact and graffiti resistant: perfect for high traffic areas
- Extra-height doors and panels available for added privacy
- Optional door pull and indicator latch with antimicrobial protection

LENOX® LOCKERS

Practical. Durable. Preferred. With exclusive, patented features you can't find anywhere else, Lenox® Lockers are the preferred specification in locker rooms all over the country.

On average, each Lenox Locker in a post-consumer color keeps more than **500 milk jugs out of landfills, which = 242.5 kWh** in Delivered Electricity Equivalent, which = **2,828.73 Thousand Btu** in Net Energy Savings, which = enough energy saved to run a:

6 MONTHS

HDPE Solid Plastic

Unlike metal, Lenox Lockers are constructed from corrosion-proof, high-density polyethylene (HDPE) material that won't rust or dent.

- More resistant to scratches & easier to repair than metal
- GREENGUARD certified as a low emitting material
- 100% post-consumer HDPE recycled material available in two colors

Metal lockers don't stand a chance.

Quick installation and low maintenance costs can add up to a 50% life cycle cost savings with patented Lenox Lockers.

Cost Savings with Lenox Lockers

Over time, metal lockers can become dented and rusted like the tired looking example at left. Maintaining 50 metal lockers for 20 years with four paint jobs and two door replacements per locker could cost \$31,000!

Plastic lockers may require an additional investment up front, but significant savings on repairs and maintenance will make up the difference over Lenox Lockers' 20-year life cycle.

20-year life cycle	Metal Lockers	Lenox Lockers
Paint 4 times @ \$100* per locker	\$20,000	\$0
Replace doors 2 times @ \$110* per locker	\$11,000	\$0
Cost to maintain 50 Lockers	\$31,000	\$0

*Estimated cost

The Lenox Locker Advantage cannot be found anywhere else!

- 1 Most secure locking/latch system available: patented continuous slide latch made of 1/2" (13mm) thick High-Density Polyethylene (HDPE) secures the entire length of the door
- 2 Patented integral box provides strength: top and bottom are welded to frame; door and frame assembly is welded to box
- 3 Optional slope top helps prevent items being stacked on top
- 4 Heavy-duty stainless steel piano hinge is more durable and longer lasting than aluminum or plastic
- 5 Ergonomic handle makes it easy to open the full length latch and conceals a metal hasp for pad locks
- 6 Multiple locking mechanism options
- 7 Ships fully assembled and ready for a fast and easy installation
- 8 Made from 30% pre-consumer content, 100% pre-consumer content or 100% post-consumer content

Key lock

Combination lock

Coin-operated lock

DCL keypad lock

Also available with Combination Padlocks.

20-Year warranty

Never paint a locker again! You get maintenance-free lockers that still look new after years of use. Even spray paint and magic markers are easily removed with standard cleaning products. All plastic locker parts and components carry a 20-year warranty against rust, corrosion, denting and delaminating under normal use. Normal use definition: Lockers installed in a climate-controlled environment, away from direct sunlight.
