Product Materials

2921-S Cover: high impact ABS; Silver. Antimicrobial agent applied to inhibit the growth of mold, mildew and fungus.

Adjustable Motor: thermally protected universal brushless type motor operating at 35,000 RPM. High/Low setting options.

Filter: HEPA filter with odor neutralizing tablet reduces contaminants in the air when hand drying.

Sensor Operation: electronic infrared sensor. Automatic shut off after 20 seconds.

Water Reservoir: collects water to prevent water from going on the floor.

LED Display: When activated "smiley" icon is displayed followed by patterns of rotating lights and all LED's blinking 3 times. LED 2 flashes red when HEPA filter required replacement. LED 3 flashes red when water collection tank needs emptying.

Installation

Verify all rough-in dimensions prior to installation. Hand dryers require a dedicated circuit and GFI Circuit protection is recommended. It is recommended that 1 of the 4 mounting anchors is fastened into a wall stud or support.

Operation

Place hands into cavity of dryer. Slowly move hands up and down through air stream until dry. Dryer will stop after hands are removed from cavity.

ADA Compliant

- ☑ Consult local and national accessibility codes for proper installation guidelines.
- ☑ Conformity and compliance to local and national codes is the responsibility of the installer.
