

Express® Lavatory System MG-Series Service Kits

Overview

The MG-Series Service Kits are designed to provide replacement parts for each section of the MG-Series lavatory systems. The MG-Series Service Kits tech data document is similar to other tech data, providing necessary options for ordering the kits. Complete the tech data for each service kit required for your system.

Construction

Terreon® Solid Surface Material (Bowl, Sprayhead and Pedestal End Caps)

The continuous bowl is constructed of Terreon®, a densified solid surface material composed of bio-based resin, or TerreonRE, a densified solid surface material composed of a bio-based resin and preconsumer recycled granules. Terreon and TerreonRE are resistant to chemicals, stains, burns and impact. Surface damage can be easily repaired with everyday cleansers or fine grit abrasives.

Pedestal Frame and Access Panel

Pedestal end caps are secured to a heavy gauge stainless steel support frame mounted to the wall. The contoured front access panel is constructed of 300 series stainless steel.

MG-Series Bowl Assembly

MG-2-BOWL and MG-3-BOWL

These kits consist of the bowl and sprayhead assembly and are available as a replacement or a retrofit. The replacement includes the bowl, the sprayhead with all the integral parts and the components required to connect to the pedestal assembly. The retrofit adds the parts required to change the type of control valves.

MG-Series Bowl Only Assembly

MG-2-BOWL-ONLY and MG-3-BOWL-ONLY

These kits are just for a replacement Terreon bowl.

MG-Series Pedestal Assembly

MG-2-PED and MG-3-PED

These kits consist of the pedestal frame, end caps, access panel, control valve assembly and supply connections.

MG-Series Sprayhead Assembly

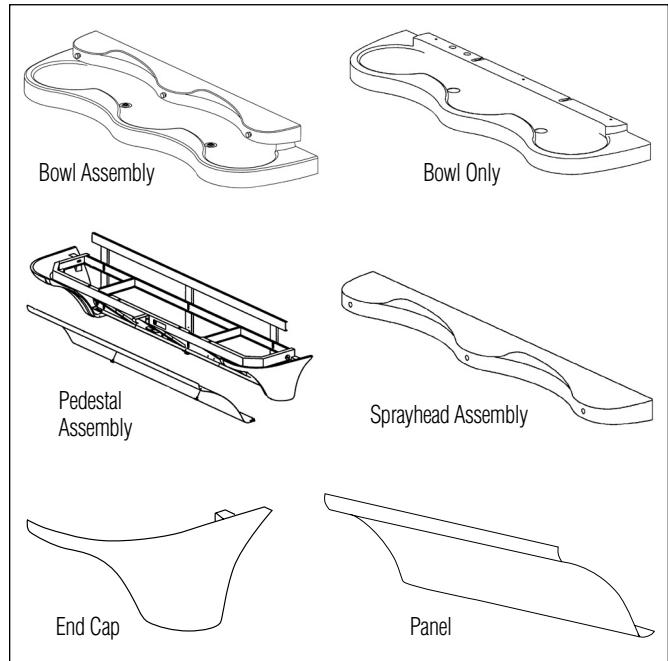

MG-2-SPYD-ASSY and MG-3-SPYD-ASSY

These kits consist of the Terreon sprayhead with all the integral parts and the components required for connecting to the valve assembly in the pedestal. They are available as a replacement or retrofit. The retrofit adds the parts required to change the type of control valves.

MG-Series End Caps and Panel

MG-2-PANEL-CAPS and MG-3-PANEL-CAPS

These kits are for replacement stainless steel access panels, Terreon right and/or left end caps. The access panels and caps can be ordered individually or in any combination.
